

## ***A Different Kind of Hero***

The compassionate nurse who cares for the weak,  
Single moms so gentle and hearts so meek.  
The well-liked girl who's even nice to the geeks  
These are heroes who are very unique.

The man in the wheelchair who would not be defeated,  
The High school "nobody" people criticized, but persevered and succeeded  
A choice of drugs and alcohol, but her education she completed.  
These are winners moving forward unimpeded.

The girl who makes you smile even when *she* is sad,  
Optimistic cancer victims who remain thankful and glad.  
The teacher who shows kindness when most would get mad,  
They are all victorious even when things are bad.

Volunteers who give their time for others in need,  
The handicapped Olympian who pushes and exceeds.  
People who stand up for their rights and their strong beliefs,  
These are different kinds of heroes who try hard and succeed.
