

EGYPTIAN MEMORIES

*An airplane view of Egypt will be your family waving to you
where they are at the airport, surrounded with
tall, earthy colored buildings
But when you land you see such an Egyptian style view, it is truly amazing
Egypt is the land of much to wonder and see and little to sleep
All of memories, laughter, and moments spending time with my
world's greatest family which are memories of a lifetime and they
are ours to keep
The Egyptian hot sun always follows you through out the day
Even when you are out with your family eating
shawerma or
shopping for ancient Egyptian antics from long
away
A trip to the Pyramids, the Sphinx, the Nile River,
and the
Cairo Tower is such a dream come true
Which is a memory that will never be forgotten, it
wil always*

*stay in your heart and be with you
So a trip to Egypt and seeing your family is truly
and adventure of memories and fun
And a journey of a lifetime which has just begun!*

EGYPTIAN MEMORIES
